Club membership is currently at 434 members

Work continues on score shack.

May 14, 4H will be using 3 pistol bays & the 300 yard range.

May 24, Tuesday, City Police will be shooting at the pistol bays.

Grass will be mowed at the 300 yard range prior to the Oregon Trail Classic Match.

Discussion of possibility of having a CPR & first aid certified person at each match.

Lee Sancoy gave a heartfelt thank you to all who attended the fund raiser and contributed to the Wenaha Muzzleloader Club in Troy. The club is back to operating after their devastating fire, thanks to the generosity and support of the shooting community. United we stand!

Darrel Plank requests when the plastic barrels have had their quota of bullet holes and need to be retired to the dumpster, please break them into smaller pieces so they don't take up all the space in the dumpster. The barrels are NOT to be shot, but they continue to develop holes! Even the ones that have " Do Not Shoot" painted on them! Please don't shoot the barrels, they are our props! Also, the plate rack in bay 2 is being shot with rifles! It has developed several holes, they are not meant to be shot with rifles, unless it is a .22 RIMFIRE rifle.

Please slow down when traveling on Rankin Road, it is quite dusty, and the shooters on the 300 yard range and the .22 trail walk are getting the brunt of the dust. It is not a pleasant experience. The possibility of getting some form of dust abatement was discussed.

June 1-5 Baker Black Powder Rendezvous will be held.

The Forest Service will be providing an educational presentation through the Oregon Trail Interpretive Center for children. Darrel Plank was invited to attend in his muzzleloader persona and attire. Should be fun for the kids to meet a Mountain Man in person! Have fun Darrel, I'm sure you will!
