### Quarterly Newsletter

#### Presidents Message

All,

The shooting season is in full swing and I am happy to see that we have had a large turnout compared to last year, as if we should be surprised due to Covid. I would like to encourage the members to get more involved in the Club Executive Committees and Discipline Leadership. We have a lot of the workload being done by a few key members and they are an aging generation.

At the end of this year, we will be holding elections for Trustees and the Trustees will be nominating the Executive Officers. I would like to emphasize that the members need to get a hold of the Trustees as they are their voice. If you feel like serving the Club as a Trustee contact the Trustees their information is on the club website.

Shoot Straight!

President Karl Baum

#### CLUB HAPPENINGS

Always check the calendar for the latest updates.

<https://lgrpc.com/calendar.html>

**Range Cleanup day: August 21<sup>st</sup> at 8 am meet at pistol bays.**

#### Monthly Business Meeting

First Wednesday of each month at 7:00pm.

Location:

*Anderson & Perry Conference Room - Next to Hobby Habit on Fir Street.*

#### Happenings at the range:

As most of the members have noticed we have done substantial logging at the pistol bays heading

north to the edge of the 300-yard range. The club has received a fairly sizable payout for the sale of the lumber. We have several ideas as an Executive Committee and Board of Trustees to serve the shooting sports better on our range and how best to spend the revenue. Some of these improvements include a classroom, improving our fencing around the ranges, down range road improvements to serve our older members, a controlled burn on the range and various other tidbits here and there. The Trustees welcome your input. Hopefully, you will have noticed we have improved the old bathrooms at the 100 yard range this last year and in April we added target backers to the pistol bays. We were given quite a load of gravel from Lee Ricker owner of Steve Lindley Contracting for use of the upriver section of the 100-yard range, if you know this gentleman please thank him personally.

On August 21<sup>st</sup> we will be doing another work party at the range, we will be prepping target backers for fall and cleaning up limbs and the sort from the logging that was done. We need your help and welcome your input on what we can do to improve your range.

#### Defensive Pistol

Well shooting season is well underway. The Defensive Pistol matches are on the second Saturday of the month. This year's group of match directors are really testing everyone. So far it has been a great mix of stages, and looks to keep getting better. On a side note and reminder to everyone that uses the pistol range please stop using the barrels and garbage cans as target backers, and clean up after shooting. Now that the logging is done look for some repair work to the road system to get started. Hope to see you at the range

Dutch Brogoitti  
Defensive Pistol Director
